## – Between Magic, Electronic Surveillance, and Mental illness

In the novel *Inferno*, August Strindberg describes how he, while living in a small rental in Paris, is attacked with gas and electric impulses by his neighbors. These experiences are usually categorized as parts of a period of mental illness. Although, today, in the social media of the contemporary information society, we can engage with groups of people describing similar experiences who denounce the explanation of Mental illness. They often have personal traits to their individual explanatory stories of why they were exposed to electronic attacks and harassment by people in their surroundings, but they connect these – together – to a common narrative: Being “Targeted individuals” (commonly abbreviated TI) or “Victims of Gangstalking”. It is hard to put a finger on what this really means, closest similar phenomenon could be to be conjured or under a “hex” – but with an internet-based support group.

Rikard Friberg von Sydow, Dr in Ethics (Theological Faculty, Uppsala University), former Archivist, since 2015 senior lecturer in **Archival Science** at Södertörn University.

One of my research interests is the “**dark side of the internet**” and I have written and published articles and regarding QAnon, Revenge porn, the Flashback Forum, drugs, the relation between Trolling and Chaos Magick, leaked nazi webshop customer data and similar subjects.

My work with **Targeted Individuals** is in a very preliminary phase. I have identified a discourse and watches it from different angles.

In this presentation I will present the discourse of targeted individuals and present some ideas regarding **possible future research**.

# Targeted individual

## Preliminary definition:

The belief that you are being “targeted”

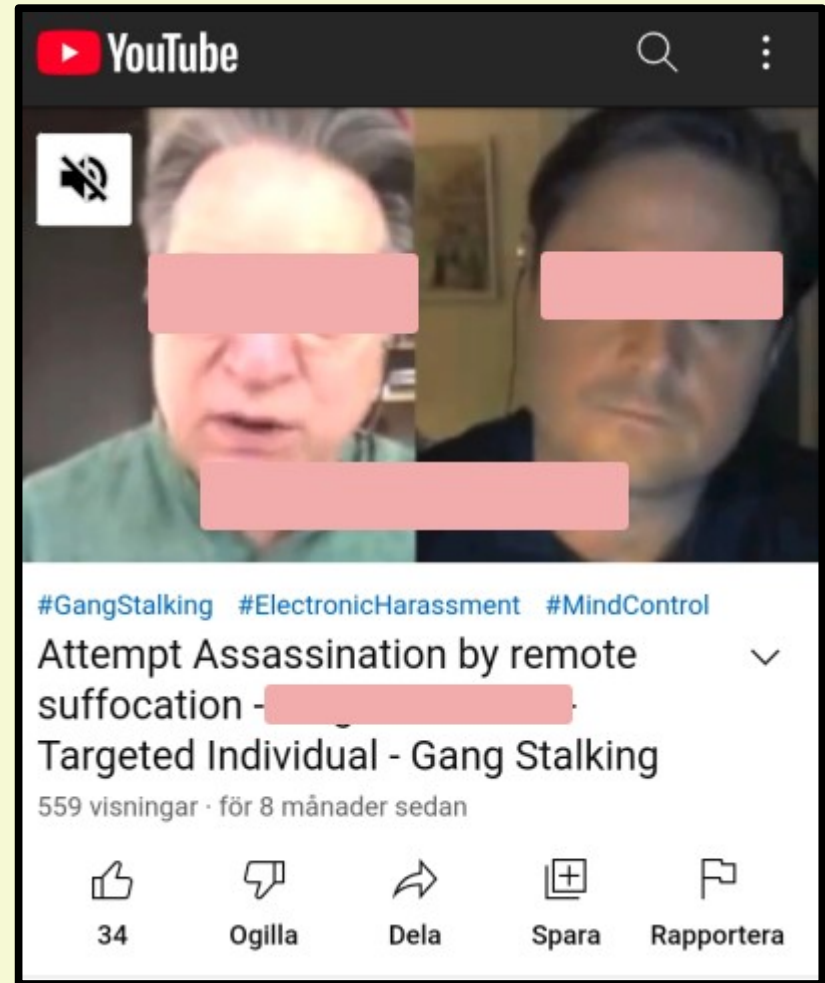

A big-tent conspiracy theory (eclectic)

“Paranoia with a subculture”

Apolitical/Confusionism

## Digital ecosystem:

Consisting of Facebook-groups, Tiktok-accounts, Youtube-channels, Reddits, et cetera.

## BODY AND ADMINISTRATION

TI tend to be closer to conspiracies relating to:

### Effects on body:

Chemtrails, chip-implants, mindcontrol, Havana-Syndrome, Anti-Vax, Electromagnetic Hypersensibility,

- Magic – someone is doing something in secret and it affects my thoughts/my body

### Administrative peculiarities:

Taxing, Birth Certificate Conspiracies, Sovereign Citizens, Acephalis, Freeman of the Land, “off-the-grid”, Survivalism.

What are the levels of gang stalking, and how are they labeled?

Covert and Overt.

Targeted individuals have an incorruptible gene, which is usually recognized shortly after birth. This gene is called the God gene because the system is corrupt and therefore seeks to corrupt all citizens in order to control them through demon technology. So they call the gene the God gene in contrast to the system, which is, as mentioned, very corrupted. The

 White noise like from my central air kinda brings out the voices. I just recorded at night while everyone slept so I didn't get much of anything else. Then I used band pass, notch, and noise filters over an inverted sound spectrum .

 jag har blivit cybertorterad med cybersound spectrum direkt i hjärnan i inneörat och cyberwaves direct energy wrapons sedan i söndags, nu onsdag blir den fjärde dagen och de har kör 24/7, helt omänskligt, dessa divices kan vara installerade hos grannar som bor under eller ovanför där man bor. frekvenserna jag hör nu är en blandning, det har inte hänt förut att de blandar 2 cybertorture sound, den ena är för att söva dig och den andra för att hålla dig vaken men samtidigt hela kroppen attackeras och skakar hela tiden,har varit efter gangstalkarna igår, misstänker stark en tvättaffär som ligger precis i samma byggnad, såg 2 bröder som kom ut därifrån ganska sent, det är så att gangstalkers kan skifta mellan lägenheterna tex från tvättaffären till grannarnas lägenhet hela dag och man kan inte komma på de själv.

## Volatile digital eco-system

A problem – but also very interesting...

- Linked content will always be vulnerable
- Kickbanning et cetera
- Trolling

## ”A Conspiracy of Lost Content” - The Case of ”Q” and QAnon

Abstract: Starting in November 2017, the anonymous poster ”Q” filled its followers with messages regarding American politics. The QAnons – the movement formed around the messages from Q – were fierce online discussants occupying almost every possible social media platform. Although, this online presence would not last as platform after platform banned the QAnons. The author uses a theory and method in which the Q-posts are described as part of a digital ecosystem and tries to answer questions regarding if it is possible to preserve the content of a deplatformed movement thus exploring the limits of digital preservation of interlinked content created by a community.

**Although I really enjoy surfing on the internet, my profession forces me to suggest some possible research...**

- The relation to psychiatric care
- The volatile digital eco-system
- The comparison with magic
